Dear Anthony,

It was such a pleasure working with you and your entire staff during the seal coating project at Briar Ridge Estates, East Brunswick, NJ.

Your company came highly recommended by a fellow EPM manager who advised how professionally and stress-free the project would be for the community and management. Sharon Maldonado was right!!

In particular, David and his crew were always professional, courteous and knowledgeable when I was in the community as well as during our daily phone updates. It is my understanding that the crew even helped an owner with a blown-out tire!

I look forward to working with Eosso Brothers in the future and will gladly recommend you anytime.

Very truly yours,

Wendy B. Rosen, District Manager
